MOHAMMAD GHOLAMPOUR

BACKEND DEVELOPER

- 09930142744
- m.gholmapour2002@gmail.com
- Mashhad, Razavi Khorasan, Iran
- LinkedIn

PROFESSIONAL OVERVIEW

Backend Developer specialized in Python and Django, with 6 months of internship experience at Dayamooz Company in Mashhad. Skilled in designing and implementing core project APIs, collaborating effectively with frontend teams, using Git and GitLab, managing tasks in Jira, and testing system performance. Familiar with Java and Spring Boot basics, eager to expand expertise across diverse backend technologies and contribute to challenging, real-world projects.

WORK EXPERIENCE

Junior Back-End Developer

Dayamooz Company, Mashhad, Razavi Khorasan, Iran | Jan 2025 – Present

- Developed and maintained the full dashboard APIs for the *Partial Truck Load* project using Django and Django REST Framework.
- Enhanced API performance and reliability by optimizing database queries and integrating new business logic.
- Utilized PostgreSQL and PostGIS to manage and query geospatial data relevant to logistics operations.
- Collaborated with the frontend team to ensure seamless API integration and user experience consistency.
- Participated in Agile development processes including daily standups and task tracking with Jira.
- Deployed and versioned code through GitLab pipelines, managing both staging and production environments.

Back-End Intern

Dayamooz Company, Mashhad, Razavi Khorasan, Iran | Sep 2024 – Jan 2025

- Contributed to the development of ~60% of the core APIs for the internal *Gamify* platform using Django and DRF.
- Designed MySQL database schemas for content and user management.
- Documented APIs with Swagger/OpenAPI, improving team collaboration and understanding.
- Wrote clean, testable code following RESTful best practices and actively participated in debugging sessions.
- Attended technical review meetings, received mentorship, and applied feedback to improve code quality.
