

Mohammad Gholampour

Backend Developer | Python & Django & FastAPI

+98 993 014 2744 | m.gholampour2002@gmail.com | [LinkedIn](#) | Open to Remote & International Roles

PROFESSIONAL SUMMARY

Backend Developer with **1+ year** of experience in logistics, healthcare, and international real estate CRM, specialized in Django, FastAPI, and PostgreSQL. Delivered **30+ production API endpoints** across **3 live projects** at Dayamooz. Skilled in RESTful API design, geospatial data processing (PostGIS), query optimization, and cross-functional collaboration with frontend teams.

KEY ACHIEVEMENTS

- › Designed and deployed **30+ REST API endpoints** for a freight logistics admin panel (Truck project) — sole backend developer
- › Built **60%+ of core APIs** for the Gamify internal e-learning platform during internship
- › Delivered **full CRM API layer** for Lunaya, a Dubai-based real estate platform (listings, reservations, commissions)
- › Implemented **geospatial data processing** with PostGIS for route and freight management in a logistics system
- › Contributed across **3 different domains** (logistics, healthcare, real estate) using both Django and FastAPI

CORE SKILLS

Languages: Python (Advanced), Java (Basic)

Frameworks: Django, Django REST Framework, FastAPI, Celery

Databases: PostgreSQL, PostGIS, MySQL, Redis

Concepts: RESTful API Design, Clean Code, JWT / CSRF / XSS, Query Optimization, Microservices

Tools: Docker, Docker Compose, Git, GitLab, GitHub, Jira

Docs: OpenAPI / Swagger

OS: Linux (CLI & development environment)

PROFESSIONAL EXPERIENCE

Backend Developer — Lunaya CRM

Dayamooz | Mashhad, Iran (On-site)

Oct 2025 – Present • 7 months

- **Designed** and implemented the majority of API routes for a real estate CRM managing property listings, unit reservations, and commission workflows in Dubai
- **Built** end-to-end modules covering listing management, booking lifecycle, and commission calculation using FastAPI
- **Collaborated** with a senior engineer on system architecture decisions and initial data import pipeline
- **Delivered** a fully integrated CRM covering authentication, listings, reservations, and reporting

Stack: FastAPI · Python · PostgreSQL

Backend Developer — Medlift

Dayamooz | Mashhad, Iran (On-site)

Jul 2025 – Oct 2025 • 4 months

- **Developed** REST API endpoints for a healthcare platform using FastAPI in an Agile environment
- **Designed** endpoints for medical data management and clinical workflow automation

Stack: FastAPI · Python · PostgreSQL

Backend Developer — Truck (Load Truck Partial)

Dayamooz | Mashhad, Iran (On-site)

Nov 2024 – Jul 2025 • 9 months

- **Designed** and implemented **30+ REST API endpoints** for the admin panel of a freight logistics system using Django and DRF
- **Implemented** geospatial data processing with PostGIS and PostgreSQL to manage routes, locations, and freight operations
- **Optimized** database queries and integrated new business logic to improve API performance and reliability
- **Participated** in Agile ceremonies: daily stand-ups, sprint tracking in Jira, and deployments via GitLab CI/CD pipelines
- **Collaborated** directly with the frontend team to ensure seamless API integration

Stack: Django • DRF • PostgreSQL • PostGIS • GitLab • Jira

Backend Developer Intern — Gamify

Dayamooz | Mashhad, Iran (On-site)

Sep 2024 – Nov 2024 • 3 months

- **Contributed** to **60%+ of the core API endpoints** for the internal Gamify e-learning platform using Django and DRF
- **Designed** MySQL database schema for user management and educational content
- **Documented** all APIs with OpenAPI/Swagger; produced clean, testable RESTful code

Stack: Django • DRF • MySQL • Swagger • Git

EDUCATION

B.Sc. Computer Engineering

Khayyam University | Mashhad, Iran

2021 – 2025

TRAINING & COURSES

Code with Mosh (2024) — Project-based intensive: Django & REST Framework, SQL & Database Design, Docker & DevOps, Java, Design Patterns, Data Structures & Algorithms

LANGUAGES

Persian — Native | **English** — Professional (technical docs & work communication; ready to improve for international teams)
